DOT PROGRAMMES

Cayman Islands Environmental Project
for the Tourism Sector

GLOBAL SUSTAINABLE TOURISM COUNCIL (GSTC) DESTINATION ASSESSMENT

The re-branding of the CEPTS programme included a full assessment of all three islands. The assessment was geared toward educating the public and private sector about the measures to be taken to increase environmental sustainability within the tourism sector.

In June of 2015 the Cayman Islands underwent a Destination Assessment through the Global Sustainable Tourism Council (GSTC). The GSTC looked at various policies, procedures and practices in the Cayman Islands that pertained to the social, economic, and environmental sustainability of the Destination.

With the assessment completed, the Department of Tourism is now looking into how the recommendations made in the assessment can be implemented within tourism policies, namely the NTMP.
